

## **2014 First Half Political Contributions Report**

**September 2014**

### **A Message from Rich Bagger, Chairman, Celgene PAC**

I am pleased to share Celgene's political contributions report for the first half of 2014, which includes a listing of candidates and political committees supported by either the Celgene Corporation Political Action Committee (Celgene PAC) or Celgene Corporation during the period from January 1 through June 30 of 2014.

During the first half of 2014 we supported 35 candidates and seven political committees from both political parties at the Federal and State levels. Contributions from the Celgene PAC totaled \$37,500 to 27 candidates and two political committees. Contributions from Celgene Corporation in states where corporate contributions are permitted totaled \$8,900 to eight candidates and one political committee. In addition, during the first half of 2014, Celgene Corporation contributed a total of \$74,650 to the Democratic and Republican Governors Associations and State Legislative Leadership Committees.

During the first half of 2014, the Celgene PAC made the largest number of contributions during any half year period since its founding two years ago. In fact, we supported three times the number of candidates in the first half of 2014 than during the same period last year.

I hope you will take a few moments to review this report and see which candidates the Celgene PAC supported in your state.

The Celgene PAC is a volunteer, nonpartisan, employee-run organization that provides opportunities for eligible employees to participate in the American political process. The Celgene PAC supports and contributes to candidates from both political parties who share our commitment to these core principles of access and innovation in health care:

- Expanding access to medicines through a competitive marketplace and a regulatory environment in which innovation can flourish
- Protecting the patient-physician relationship and ensuring patient access to innovative treatments
- Recognizing the important role of biopharmaceutical companies and their employees in the ecosystem of innovation in health care

The Celgene PAC Board of Directors, which is comprised of Celgene employees, meets monthly to consider recommendations for PAC support and approve all contributions to candidates and political committees. The Celgene PAC Board also reviews and approves any political contributions made by Celgene Corporation in states and to entities where contributions with corporate funds are permitted.

It is more important than ever for us to positively and proactively engage elected officials to demonstrate the importance of biomedical innovation and patient access in health care. I am confident that together, we can have a positive impact on the environment for innovation and access on behalf of the patients we serve.

Thank you for your support,
