

2015 First Half Political Contributions Report

A Message from Rich Bagger, Chairman, Celgene PAC

September 2015

I am pleased to share Celgene's political contributions report for the first half of 2015, which includes a listing of candidates and political committees supported by either the Celgene Corporation Political Action Committee (Celgene PAC) or Celgene Corporation during the period from January 1 through June 30 of 2015.

During the first half of 2015 the Celgene PAC made contributions totaling \$63,500 to 35 candidates and \$39,600 to 12 political committees from both political parties at the Federal and State levels. Contributions from Celgene Corporation in states where corporate contributions are permitted totaled \$16,800 to 22 candidates from both political parties and \$250 to one political committee.

The Celgene PAC continues its strong track record of bipartisan support to candidates and committees that share Celgene's mission of discovering, developing, and delivering to patients innovative therapies for serious medical conditions. This builds upon a successful 2014, with the number of donations and contributions increasing significantly year-over-year. This is a testament to the continued support of Celgene PAC members throughout the company.

I hope you will take a few moments to review this report and see which candidates the Celgene PAC supported in your state.

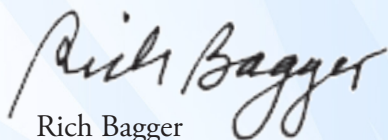

The Celgene PAC is a volunteer, nonpartisan, employee-run organization that provides opportunities for eligible employees to participate in the American political process. The Celgene PAC supports and contributes to candidates from both political parties who share our commitment to these core principles of access and innovation in health care:

- Expanding access to medicines through a competitive marketplace and a regulatory environment in which innovation can flourish
- Protecting the patient-physician relationship and ensuring patient access to innovative treatments
- Recognizing the important role of biopharmaceutical companies and their employees in the ecosystem of innovation in health care

The Celgene PAC Board of Directors, which is comprised of Celgene employees, meets monthly to consider recommendations for PAC support and approve all contributions to candidates and political committees. The Celgene PAC Board also reviews and approves any political contributions made by Celgene Corporation in states and to entities where contributions with corporate funds are permitted.

It is more important than ever for us to positively and proactively engage elected officials to demonstrate the importance of biomedical innovation and patient access in health care. I am confident that together, we can have a positive impact on the environment for innovation and access on behalf of the patients we serve.

Thank you for your support,

Rich Bagger
